Professional Summary

Data and growth marketing analyst with 6+ years of experience across online delivery, fintech, healthtech, telecom, SaaS, and digital services. Experienced in translating customer, campaign, CRM, transaction, revenue, and product data into practical recommendations for marketing, product, sales, and leadership teams. Skilled in SQL, Python, R, Power BI, Tableau, Looker Studio, GA4, dbt, Excel, CRM analytics, A/B testing, cohort analysis, segmentation, forecasting, attribution, and data-quality validation.

Full-Time Experience

Senior Marketing Insights Analyst

Snappfood

Feb 2024 – Sep 2024

Online Delivery Platform

- Led multi-source analytics for a 10M+ user online delivery platform, combining CRM, GA4, ad-platform, website, product, order, and category data across six business lines.
- Designed GA4, SQL-event, and UTM tracking frameworks to improve measurement consistency across acquisition, lifecycle, and product-marketing initiatives.
- Developed automated SQL and Power BI dashboards for 30+ acquisition, engagement, retention, and revenue KPIs, reducing recurring reporting time by 40%.
- Optimized \$100K+ monthly budget allocation through channel-performance analysis, improving paid-media efficiency and cutting CPO by 29%.
- Conducted marketing mix modeling and channel-performance analysis to guide budget allocation and campaign investment decisions.
- Analyzed campaign, website, and funnel behavior to identify friction points, reducing key user-journey drop-offs by 12%.
- Designed and evaluated A/B and multivariate experiments, cohort analyses, and targeted lifecycle initiatives to improve order volume, retention, and churn performance.
- Built audience segmentation and CRM-trigger frameworks across SMS, push, email, and in-app channels for lifecycle, reactivation, retention, and seasonal campaigns.
- Supported occasion-based campaigns by matching offers and messaging to business lines, including flowers, chocolate, sweets, fruits, and seasonal product categories.
- Partnered with CRM, product, operations, and creative teams on campaign calendars, targeting, creative briefs, offer setup, QA, launch, and post-campaign analysis.
- Enhanced CRM data quality and marketing automation triggers, improving personalization and helping reduce churn by 18%.
- Built predictive churn and cohort models in R to support targeted reactivation and retention analysis.
- Delivered KPI dashboards and insight presentations to senior leaders, helping teams focus on the decision, action, and business impact behind each report.

Marketing Analytics Specialist – Promoted to Marketing Supervisor

Royan Stem Cell Technology

Sep 2022 – Sep 2023

HealthTech / Biotech

- Consolidated campaign, CRM, sales, service, revenue, and customer data into SQL and Power BI dashboards for recurring marketing and commercial reporting.
- Built dashboards for paid media and marketing-channel performance, helping senior managers understand budget allocation, ROAS, revenue, and key campaign KPIs.
- Created Power BI reporting with SQL to improve visibility into campaign performance and support a 30% sales improvement.
- Analyzed web analytics, CRM data, customer feedback, and sentiment trends to identify service improvements, supporting a 9% satisfaction-score increase.
- Built R forecasting models to improve revenue planning and reduce forecast error by 15%.
- Strengthened ECRM and doctor-outreach programs, increasing referrals by 19%.
- Documented advertising and content-approval workflows across doctors, senior managers, the VP, and CEO, reducing confusion and speeding campaign launches.
- Created digital approval records for marketing materials so each stakeholder could track review status, accountability, and previous approvals.
- Helped a young marketing team build confidence and credibility by making campaign results, approvals, and performance data more visible to leadership.

Digital Marketing Specialist – Promoted to Digital Strategist

NeginTel

Sep 2019 – Sep 2022

Telecommunications

- Integrated ad-platform, CRM, website, and app data into Tableau dashboards for campaign tracking, audience analysis, and performance optimization.
- Analyzed Google Analytics, Firebase, SQL, CRM, website, and app data to optimize ad spend and user engagement across digital channels.
- Increased SIM sales by 9% through data-driven targeting, campaign optimization, and automated digital marketing workflows.
- Implemented email automation workflows that improved open rates by 12% and click-through rates by 15%.

- Redesigned website workflows, supported mobile-app launch activities, and automated recurring marketing tasks to improve team productivity.
- Partnered with IT and marketing teams to improve data governance, tracking accuracy, and reporting consistency across digital channels.

Part-Time & Freelance Experience

Marketing & Data Analyst – Freelance <i>Selected Clients: Saamer, CareBridge Documentation & Decrisk</i>	Oct 2024 – Present SaaS / HealthTech
• Built an end-to-end SaaS growth analytics solution for Saamer using SQL, dbt, and Power BI, connecting acquisition channels with activation, conversion, retention, CAC, retained CAC, and revenue. • Developed cohort, funnel, forecasting, and scenario analyses to identify high-value channels, onboarding friction, conversion gaps, and customer-retention opportunities. • Built dbt models, reporting marts, and documentation to support reliable KPI definitions and reusable growth reporting. • Implemented data-quality checks and revenue-reconciliation logic to improve trust in acquisition, channel, and revenue reporting. • Audited GA4, Google Tag Manager, Google Ads conversion tracking, and UTM measurement for CareBridge and Decrisk, improving visibility across landing pages and lead-generation journeys. • Used AI tools such as ChatGPT and Claude to accelerate research, SQL/dbt development, QA, documentation, and marketing-analysis workflows while validating outputs manually.	

Consultant / Part-Time Data Analyst & Researcher <i>AP</i>	May 2022 – Mar 2024 Payment Services / Fintech
• Analyzed high-volume transaction and POS datasets to identify customer behavior patterns, merchant segments, and product opportunities. • Segmented clients based on transaction and POS activity to support targeted service bundles and sales/product strategy. • Clustered customers using transaction data to uncover behavioral patterns and generate actionable insights for sales and product teams. • Benchmarked global payment trends and emerging payment methods to support product research and strategic recommendations. • Optimized data pipelines through incremental ETL strategies, reducing database runtime by 20%.	

Selected Analytics Projects

SaaS Growth Analytics: Acquisition to 90-Day Retention <i>SQL, dbt, BigQuery-style modeling, Python, Power BI / Looker Studio</i>	Portfolio Project
• Built an analytics project connecting acquisition, activation, funnel behavior, cohort retention, CAC, retained CAC, and revenue performance. • Created dbt-style models and stakeholder-facing dashboards to identify channel efficiency, onboarding friction, retention drivers, and business tradeoffs.	

Kaggle Analytics Notebooks <i>E-commerce Funnel Analysis A/B Testing Evaluation SQL RFM Customer Segmentation</i>	Portfolio Projects
• Published concise notebooks demonstrating funnel drop-off analysis, web-conversion A/B test evaluation, and SQL-based RFM customer segmentation. • Project links: Funnel Analysis A/B Testing RFM Segmentation	

Technical Skills

Analytics & Experimentation: Funnel Analysis, Cohort Analysis, A/B Testing, Multivariate Testing, Hypothesis Testing, Attribution Modeling, Marketing Mix Modeling, Segmentation, Churn, Retention, Forecasting, Scenario Analysis
Data & Programming: SQL, Python, R, dbt, ETL, Data Modeling, Data Validation, Revenue Reconciliation, Data Quality, Version Control
BI & Reporting: Power BI, Tableau, Looker Studio, Excel, Power Query, PivotTables, KPI Dashboards, Executive Reporting, Data Storytelling
Marketing, CRM & Growth: GA4, Google Tag Manager, Google Ads, Meta Ads, UTM/Event Tracking, CRM Analytics, HubSpot, Braze, Salesforce, Firebase Analytics, ECRM, Email, SMS, Push, In-App
Business & Collaboration: Stakeholder Management, Cross-Functional Collaboration, Campaign QA, Creative Briefs, Post-Campaign Analysis, Market Research, Process Documentation, Self-Service Reporting

Certifications

Google Data Analytics Professional Certificate , Google	2025
NoSQL, Big Data, and Spark Foundations , IBM	2025

Education

K. N. Toosi University of Technology – M.Sc. in Industrial Engineering	2012 – 2015
Iran University of Science and Technology (IUST) – B.Sc. in Industrial Engineering	2008 – 2012
